## EDITORIAL COMMENT

The traitors will have to acknowledge the Korn in Korniloff.

Estill county is making an effort to enlist its entire quota of 107 as volunteers this week.

"Sammys" are now being trained in trench digging, bayonet practice and other war work, in the French camps.

The first American soldier to get hurt in France had his right hand blown off while fooling with a French bomb.

As compared with 1914, the birth rate in Germany for 1916 declined 39.5 per cent.

A 32 calibre bullet fired at a negro in Rockport, Ind., struck him squarely in the forehead and bounced off, without even making a dent.

Scott county drew some distinguished names, including J. Washington, Adams, 1 Franklin, 1 Hamilton, 1 Morgan, 3 Lees, 4 Jacksons and a man named A. Generals.

If there are loyal troops in Russia they should replace the mutinous cowards in the trenches, who in turn should be sent to the rear and shot. If it becomes necessary, why not unleash the Japs?

If there are unregistered slackers in this county. Patriotic people who know of them should make it their duty to report their names to the Sheriff for investigation. It is reported that there are some who did not register.

Emma Goldman is out on bond, pending an appeal granted. It is to be hoped that experience has been a good teacher and that this really brainy woman may behave herself in future.

Forty Chippewa Indians have enlisted at Hayward, Wis. Chase "Shmsia, an Indian, took his two sons to a recruiting office and when one failed to pass the examination he offered to go and was accepted. Another Indian had his three boys enlisted.

That Maj. Gen. Goethals may be given a job he knows something about and be sent to France at the head of the American army of engineers, is the foremost development following President Wilson's reorganization of the shipping board. A man now heads the navy board.

On the actual entry of women into battle on the eastern front has been insufficient to imbue links of the recalcitrant Russians patriotism. They are still deserting in large numbers in Galicia, leaving virtually a free road for fresh German advances. "The Command of Death," composed of women, is being used to stop the enemy's advance.

Brig. Gen. Geo. O. Squier, commander of the signal corps, gives out statement that the determination of allied governments is to enter Italy by the air route, and the United States government is going to provide enough machines to make itself felt in putting this program through. The number of machines to be built is a closely guarded secret.

Alexandrovich Fedorovich Kerensky, heralded as the Napoleon of New Russia, was born in Tashkent, Central Asia, of poor parentage. Through the influence of his uncle, Prot. A. V. Masliff, and one time leader of the liberal group in the council of state, Kerensky was enabled to go to Moscow to study and finally enter the university there. He is a brilliant orator and at 35 is Russia's most conspicuous leader. He entered the Duma in 1912 and was a leader in denouncing the Czar. The events in Kerensky's life since March have been decidedly adventuresome. Since he has been made army and marine minister and last week was chosen premier. Today he holds the power or a dictator.

## BULLETS FOR MUTINEERS

Kerensky's New Orders in Effect--Korniloff Shot Cowards Before they Came.

GALICIAN FLIGHT STILL ON

Teutons Lose Heavily in Attack on French But Make Slight Advances.

The Russian government's policy of "blood and iron" is to be carried out along lines which bode ill for the sedition troops along the eastern front and those persons within the country who are trying to nullify the good work that has followed in the wake of the revolution.

Capital punishment, abolished with the advent of the new government, again has been put into force on the demand of the military commanders at the front, who now will be able to assemble field court martial and put to death summarily traitors in the army. General Korniloff, commander of the forces in Galicia, whose dissatisfaction has wrought havoc in the Russian morale, was the most insistent of the military chiefs in calling for a free hand to check the refractory troops, declaring that the death penalty was the only means of saving the army.

Prior to the acquiescence of the government, Gen. Korniloff is reported to have taken the drastic step of having a division of fleeing cowards of the Eleventh army shot to pieces by their faithful former brothers in arms.

Meanwhile, pending the tightening of the reins of repression, the Russian troops everywhere in Galicia from the region around Tarnopol southward to the southwestern Bukovina border continuing to give way with relatively little fighting before the Germans and Austro-Hungarians.

Again the Germans have made a vicious thrust at the French line in the Aisne region of France and again they have paid dearly in men killed or wounded for a slight gain. The attack was delivered over a front of two miles from Hurtebise to LaBovelle, but only to the south of Ailles was the crown prince's army able to penetrate French first line trenches. In the Champagne the Germans have captured several French trenches.

Over a forty-mile front in Flanders to the River Rise, the terrific artillery duel between the British and Germans continues, but as yet no attempt has been made by either side to throw their infantry into the fighting. German steamers attempting to ply in the North sea are meeting disaster from patrolling British torpedo boat destroyers. Two additional vessels have been sunk by destroyers and two others captured and taken into an English port.

## KEEP YOUR EYES OPEN

If Your Name Was In the Drafted List For Army.

## PUBLISHED NOTICES ALL

Local Board Will Not Mail Out Special Notices to Any Men.

Much has been asked concerning how the men drafted will be notified to appear for examination. In an interview, Mr. O. H. Anderson, a member of the local exemption board gave out the following facts:

Penalty envelopes have been asked for, but have never been furnished by the Government, so that the local board can notify parties called. No blank affidavits for dependent wives and children have ever been furnished the board, although the board has requested that same be forwarded at once.

The law requires that all called must report for physical examination at least five days after they receive notice that they are drawn. It also specifies that posted and newspaper notice of same will have the same effect as personal letters.

In the present condition of affairs, the board is unable to give personal notice to those drafted and all drafted for the first army should keep in strict line with all newspaper notices and be sure to report five days after said notice is published.

The Government has almost a million men to handle and get ready and all should keep their eyes open and do all they can to minimize all unnecessary work and trouble.

The board hopes that all necessary envelopes and affidavits may soon be on hand, and when they do come personal notice will be given; but if the Government does not furnish them the newspaper notice will be all that the drafted men will have. The Government accepts no excuses, so keep up with the news.

## RUSSIAN WOMAN TROOPS IN ACTION

"Command of Death" Suffers Some Losses--Behave Well Under Fire.

Petrograd, July 26.—The Russian Women's Battalion, raised by the twice wounded girl officer Vera Butcherkareff, was in action on the front at Krevo Wednesday for the first time. They are reported to have been successful although the battalion suffered some losses, the extent of which is not yet known. The Novoe Vremya correspondent at the front reports that the women behaved in an exemplary way, gaining the respect of the men soldiers.

The "Command of Death" is the official title of the battalion raised by Mademoiselle Butcherkareff. It recently left for the front after a review by M. Kerensky. Most of the recruits are from the higher educational academies or secondary schools, with a few peasants, factory girls and servants. Some married women were accepted, but none who had children. Most of them are between 18 and 25 years old, of good physique. They wear their hair short or have their heads entirely shaved. The girls carry the cavalry carbine which is five pounds lighter than the regular army rifle. They were drilled under the instruction of a male Sergeant of the Kolynsky regiment.

## M'ADOO NEEDS 8 TO 10 BILLIONS

Estimates of \$5,278,636,000 Are Sent to Congress by War Department.

## SEVEN BILLIONS AT ONCE

Other Departments are Expected to Ask for Appropriations of \$1,000,000,000.

Washington, July 27.—The new war budget to carry the government through to next July and to cover additional credits to the allies promises now to far exceed \$8,000,000,000 and may amount to \$10,000,000,000.

War department estimates sent to congress call for new appropriations of \$5,278,636,000 for that branch of the military establishment alone.

Estimates totaling another \$1,000,000,000 or more are expected when the other departments report their needs.

In addition Sec. McAdoo has indicated that before the year is out congress will be asked for a \$2,000,000,000 appropriation to increase the fund available for loans abroad.

As soon as the departmental reports are in, the appropriation committees of congress will go to work on an immediate budget which probably will be in the neighborhood of \$7,000,000,000. Meanwhile the senate finance committee, which has the war tax bill in charge, will meet to consider what part of the new expenditures is to be provided by taxation and on what commodities the new levies are to fall. The committee hopes to have a revised bill ready next week.

Congressional leaders do not expect to have to provide immediately for the credits for the allies as treasury officials have indicated that an appropriation for that purpose would be requested until the next session.

The gross estimates submitted by the war department totaled \$5,917,878,347 but that covered all existing and expected deficiencies in the department funds, including upwards of \$640,000,000 already appropriated for the available program. This latter item will not be included in the budget but congress will have to provide revenue to meet it since it was not on the ledger when the war tax bill was framed.

## Swedish Valjean.

The story of Victor Hugo's character of Jean Valjean in "Les Miserables," the escaped convict, who made of himself a respected and wealthy man, has been duplicated in real life in Sweden. The denouement, however, was different, for whereas the detective who discovered Valjean's identity did not arrest him. The Swede, however, was denounced and the denouncer is claiming a reward of a thousand pounds for the man's apprehension. Ghotard Lindhagen is said to have accumulated property worth more than 100,000 crowns in his eight years of liberty. It has been learned that he lived in the United States a part of the time between his flight from Uddevalla in 1904 and arrest.
